## PROFESSIONAL SUMMARY

Driven and innovative fresher with hands-on experience in machine learning and web development. Proven ability to deliver high-quality projects, including Movie Recommendation System and AI Content Generator. Strong proficiency in C++, Data Analytics, and various web technologies, complemented by a keen interest in self-development and leadership roles.

## SKILLS

- **HTML | CSS | JavaScript | C | C++ | Data Analytics | MySQL | UI/UX Design | React | Git | Github**

## EXPERIENCE

**Data Analytics Process Automation Intern | Alteryx SparkED Virtual Internship** **January – March 2025**

- Acquired hands-on experience with data preparation, cleansing, and automation using **Alteryx** tools.
- Gained insights into real-world data workflow optimization and business analytics.
- Earned a certificate of completion jointly issued by **Alteryx**, **EduSkills**, and **AICTE**.

**AI & Cloud Intern | Edunet Foundation** **December 2023 - January 2024**

- Leveraged resources provided by SkillsBuild and the **IBM Cloud** Platform to deepen understanding and proficiency.
- Worked on the Project “**Movie Recommendation System**”.
- This project was about building a content-based movie recommendation system that suggests similar movies based on their metadata, providing users with personalised movie recommendations.

**AWS AI-ML Virtual Internship Program | EduSkills** **September - November 2023**

- Gained comprehensive knowledge and hands-on experience in **Artificial Intelligence** and **Machine Learning**.
- Acknowledging the invaluable support of **Amazon Web Services (AWS)**, utilised cutting-edge resources to enhance practical skills and contribute to project success.

## ACADEMIC PROJECTS

**NexChat- Realtime Chat App (MERN Stack) | [Project Code](#)**

- Developed a real-time chat application using **MongoDB**, **Express.js**, **React**, and **Node.js** with **Socket.IO** integration.
- Implemented JWT authentication, user chat rooms, live message updates, and a responsive UI for seamless communication.

**AI Content Generator**

- Developed a full-stack AI content generation application using **Next.js**, **React**, **Tailwind CSS**, **TypeScript**, **Gemini**, and **Clerk**.
- Integrated Gemini language model to generate high-quality content based on user prompts.
